PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of progressive experience architecting scalable backend systems, cloud-native microservices, and automation pipelines. Proven track record delivering 40%+ performance improvements. Deep expertise in Laravel/PHP, Docker, AWS (EC2/S3/RDS), and AI/automation tooling (n8n, OpenAI, Gemini APIs). MS in Software Project Management from FAST-NUCES.

WORK EXPERIENCE

Sr. Engineer – Applications • Next Generation Innovations, Karachi, PK | *Jul 2025 – Present*

- Manage and optimize high-performance Nginx configurations for production LAMP stack applications serving enterprise-scale traffic
- Orchestrate zero-downtime production deployments, maintaining system reliability and uptime SLAs

Backend Engineer • Get Licensed, Karachi, PK | *Dec 2024 – Jul 2025*

- Engineered Docker-based microservices architecture, improving system modularity and deployment speed
- Optimized MySQL schemas and query execution plans, achieving a 40% boost in database query performance and system responsiveness

Sr. Software Engineer • Shispare Pvt. Ltd., Karachi, PK | *Jun 2022 – Dec 2024*

- Architected Laravel/Vue.js ecosystems integrated with AWS microservices (EC2, S3, RDS) for global e-commerce platforms
- Designed and implemented complex 3PL (third-party logistics) integrations serving international clients across multiple regions
- Led backend architecture decisions, mentored junior engineers, and enforced code quality standards

Software Engineer • E-Planet Communications, Karachi, PK | *Sep 2021 – Jun 2022*

- Specialized in performance refactoring of high-traffic Laravel applications, reducing response times by profiling and resolving bottlenecks
- Delivered new feature implementations aligned with product roadmap, collaborating closely with frontend and QA teams

Software Engineer • CIS Pvt. Ltd., Karachi, PK | *Jun 2020 – Aug 2021*

- Developed and maintained Laravel-based e-POS platforms with server-side deployment pipelines ensuring 99.9% transaction stability
- Managed Linux server environments and implemented automated deployment scripts to reduce release cycle time

Software Engineer • DotKlick Pvt. Ltd., Karachi, PK | *Apr 2020 – Jun 2020*

- Rapidly developed an online school management system and digital library as a COVID-19 emergency response, delivering within weeks

Junior Software Engineer • Symbiosis Technologies, Karachi, PK | *Mar 2018 – Mar 2020*

- Designed scalable cloud architectures and delivered high-quality web solutions across multiple client projects using modern development stacks

- Gained foundational experience in PHP, MySQL, and Linux server management across diverse industry verticals

EDUCATION

MS in Software Project Management • FAST – National University of Computer & Emerging Sciences | 2020 – 2023

Advanced software lifecycle management, agile methodologies, scalable system architecture | Karachi, PK

BS in Computer Engineering • Sir Syed University of Engineering & Technology | 2014 – 2017

Hardware-software integration, system design, computer science fundamentals | Karachi, PK

TECHNICAL SKILLS

Backend & Core: PHP, Laravel, MySQL, REST API Design, Microservices Architecture

Frontend: Vue.js, React, Node.js, JavaScript

DevOps & Infra: Docker, Nginx, AWS (EC2, S3, RDS), Linux Server Management, CI/CD Pipelines

AI & Automation: n8n (Self-hosted), OpenAI API, Gemini API, GitHub Copilot, Cursor

Languages & Tools: Go, Postman, Git

INTERESTS

Automation & Application Architecture • Resilient/Self-Healing Systems • Cloud Infrastructure & Scaling • AI Tooling • Physics & Space Exploration
